

Azure Practice

With us you get so much more than Azure

- Introduction to the Azure Practice
- What to expect from our Azure Practice
- Transform the way you manage Azure with CloudBolt
- Meet the team
- Get in touch

Scale your Azure revenue without scaling the size of your business.

Our Azure Practice team can act as an extension of your business, giving you an Azure experience like no other while empowering you to build your own Azure proposition.

Unlike other CSPs our whole Azure offer is built around 4 key success pillars:

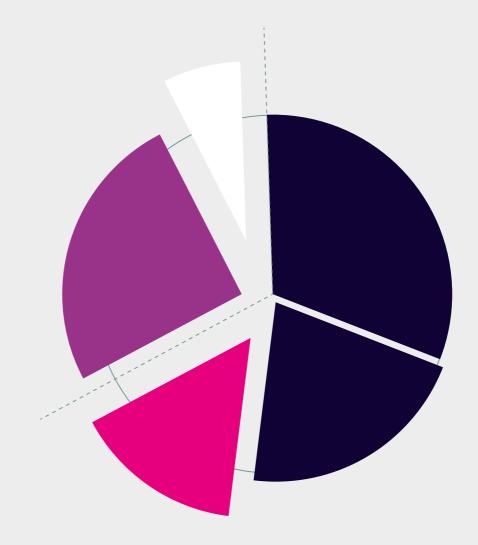

1. Our Azure Practice Team

2. Training and Enablement

3. Go-To-Market Support

4. Simplified Azure Management, Reporting and Security

No matter if you have a comprehensive Azure proposition or you're at the start of your Azure journey, our Azure Practice provides the perfect partnership for your business.

04

We're with you every step of the way.

We know Azure can be complex, time consuming and expensive. That's why we're determined to make your Azure journey as simple as it can be with our unrivalled value-added services. We're investing in our specialist team and services so you don't have to.

What will our 4 key success pillars provide?

A dedicated team of Azure experts: From pre-sales engineers right through to solution architects, we're here to support you with your Azure proposition, go-to-market plans, commercial proposals and more.

Training and Enablement: Let our team support your team, by providing bespoke 121 training to upskill them in the areas you need it most. You'll also get access to our exclusive programme of technical and sales training and we'll keep you up to date with all the latest Azure developments as soon as we hear them from Microsoft.

Go-To-Market Support: We'll help you with everything from sales, marketing and commercial advice to creating a scalable and repeatable Azure proposition to enable an easier pathway to success.

Simplified Azure Management, Reporting and Security: We've partnered exclusively with CloudBolt to give our partners access to their leading Azure management platform. This enables increased insight and usage visibility, easier management of your Azure instances, superior on-demand reporting, as well as better security and compliance management.

You'll also get access to

Professional services: Keeping you ahead of your competitors by making sure you can go-to-market quickly.

Dedicated marketing resources: Access to a wealth of Azure collateral and resources at your fingertips (you can even brand these with your own company logo and contact details).

Transform the way you manage Azure... Introducing CloudBolt.

Simple, quick and scalable Azure Management sounds like something MSPs can only dream of, right? Wrong...

Introducing CloudBolt Cloud
Management Platform - the easy way
for you to manage your Azure Cloud
subscriptions and monitor cloud
financials, continuously optimise
your cloud resources and proactively
