All-IP Managed Service

WELCOME TO AIMS

Serving up a simple migration to future technologies.

Giacom have built the machine to deal with the complex, asset-specific migration of your PSTN base.

With assignment of project management resource, Giacom are here to save you the operational expenditure of migrating your base yourself. We include this service for free in our proposal, reducing the load on your resource and doing all the heavy-lifting for you.

Get started

Comprehensive Base Analysis

Detailed assessment and strategic geo-recommendations for your existing infrastructure.

MAIN EVENT

Proactive Order Management

Receive weekly progress reports and participate in regular project calls to stay informed.

Reliable Delivery Assurance

Continuous order monitoring and efficient supplier management to ensure timely execution.

Seamless BAU Transition

Smooth transition to business-as-usual operations once the project is complete.

Expert Guidance

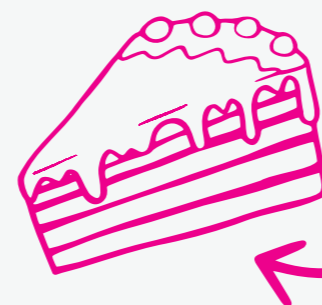

Our in-house specialists provide dedicated support, guiding you through every step of the process.

Customer Control

You retain full control over all end-user contact and communication.

Migrating to All-IP is a piece of cake!

SWEET SUCCESS

Save significant time and money with Giacom handling all the heavy lifting.

Exclusive offers and products available only to Giacom partners.

Specialist support from Giacom's dedicated connectivity experts.

Market-leading pricing on broadband from the UK's leading carriers.

Get ahead and avoid rising costs on legacy technology.

Our experts

Our All-IP Managed Service (AIMS) team are here to work with you as you transition your legacy base to future-proof All-IP services.

Taking away all the complexities of mass migration, they'll wash your base, place your orders and manage them through to completion, while keeping you updated throughout.
